TOWN WARRANT
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Hampstead in the County of Rockingham in said State, qualified to vote in Town Affairs:

(L. S.)

You are hereby notified to meet at Town House in said Hampstead on Tuesday, the 12th day of March, next, at Ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing, and to vote for the election of Delegates-at-Large, Alternate Delegates-at-Large, District Delegates, Alternate District Delegates to the National Conventions of the Democratic and Republican Parties, to be held for the purpose of nominating Party Candidates for President and Vice-President of the United States.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

3. To see what sum of money the town will vote to raise and appropriate to keep the unimproved roads and bridges in repair.

4. To see what sum of money the town will vote to raise and appropriate to meet the expenses of the Public Library, the ensuing year.

5. To see what sum of money the town will vote to raise and appropriate for the observance of Memorial Day, and what method they will adopt to expend the same.

6. To see what sum of money the town will vote to raise and appropriate for the cemeteries for the ensuing year.

7. To see if the town will vote to authorize the Selectmen to hire money for the use of the town in anticipation of taxes.

8. To hear reports of auditors and committees, and to act thereon.

9. To see if the Town will accept State Aid for construction of State Road and raise and appropriate or set aside for said purpose the sum of \$1,236.00 or will accept State Aid for construction of Class V roads and raise and appropriate or set aside for said purpose the sum of \$135.56.

10. To see if the town will vote to raise the sum of \$500.00 to pay note for the Fire Engine.

11. To see what sum of money the Town will vote to raise and appropriate for new equipment, maintenance, and housing of the Fire Department.

12. To see if the Town will vote to convey a site for a Fire-House to the Voluntary Fire-Protective Association, and to see if the Town will vote to loan to the Association a sum of money for the construction of a Fire-House, and hold as security a first mortgage thereon, authorizing the Selectmen to hire money for the purpose.

13. To see if the Town will vote to raise and appropriate a sum of money for permanent fire water supplies, and what method will be adopted for expending the same.

OR To see if the Town will vote to raise and appropriate the sum of \$800 to construct a fire water-hole

centrally located in East Hampstead and a fire reservoir centrally located in the Village provided satisfactory arrangements can be made with the owners of the sites, and what method will be adopted for expending the same.

14. To see if the Town will vote to raise the price of lots in Lakeview Cemetery from \$2.00 to \$10.00, and that all money received from the sale of lots be put into a Trust Fund, the same to be used for General upkeep of the yard.

15. To see if the town will raise the sum of \$100.00 for Health Department, to be used to care for Public Dumps, and Expense of Health Officer. Money to be expended on approval of the Selectmen.

16. To see if the town will vote to raise the sum of \$50.00 for repairs on road leading to West Hampstead Cemetery, providing the Town of Sandown raises a like sum.

17. To see if the town will appoint a zoning commission to consist of five members, who shall serve without compensation, to recommend boundaries for zoning districts in said town and to recommend appropriate regulations therefor, in accordance with the provisions of Chapter 42 of the Public Laws.

18. To see if the town will vote to raise and appropriate the sum of \$475.00 to the Trustees of the Trust Funds for reimbursement on part of the Principal.

19. To transact any other business that may legally come before the meeting.

Given under our hands and seal, this 20th day of February, in the year of our Lord nineteen hundred and forty.

Joseph M. Tait
Forrest H. Tabor
Charles A. Brooks
Selectmen of Hampstead

A true copy of Warrant—Attest:

Joseph M. Tait
Forrest H. Tabor
Charles A. Brooks
Selectmen of Hampstead

NOTICE

The polls will be open to vote for town officers from 10 A. M. until 6 P. M. The appropriations for the money to be raised will be during the afternoon hours.

The Selectmen will meet the first Saturday of each month at 7 P. M. at the Public Library.

REPORT ON WATER HOLE

Water supplies for fire protection have always been a serious problem in our Town, and one for which no practical and economical solution has heretofore been offered or attempted. Convinced however that this problem is not an insurmountable one, your Fire Department urged upon your Selectmen a local project by which the needed solution might perhaps be practically demonstrated, which was duly granted by them early last fall.

I myself consider it a privilege to have been placed in charge of the project with freedom to work out my own ideas and have accepted no pay for my time in carrying it through. I wish here to express my thanks, and the Town's thanks, to Raymond Brackett, Carol Coombs, William Hamilton, John Parlin, Stanley Johnson, Roland Dies, Forrest Tabor, Levi Duston, and others whose donated labor and services represent a fine community spirit and contribute much to the success of the project.

It was originally estimated that the project could be carried through at an actual cost of \$250 or less; we were, however, too late in the season getting started and encountered adverse weather conditions which increased the labor costs greatly and we were further set back by unexpected ledge which required blasting and considerable unforeseen labor. Completed, the project represents an actual cost to the Town of \$337.75.

which compares very favorably with previous ideas of the cost of water holes.

This water hole is located near the Town Hall and the School Buildings and provides a water supply for their protection. It is round in shape, sixteen feet across and ten feet deep and has a capacity of about sixteen thousand gallons of water when full to the overflow. It is fed by veins of water underground in dry season and also receives surface water when there is any; it did accumulate about ten thousand gallons of water from underground, without any surface water when first completed; and this was at a time when the ground was unusually dry. It is entirely covered over by a self-supporting reinforced concrete dome with a man-hole at the center for access to the interior. All but the man-hole is below grade and out of sight, it is practically permanent and free from up-keep or maintenance cost, and freeze-proof. A dry hydrant is provided from which water may be drawn at any time, and if need be the water is also available through the man-hole.

Many of these features are different from the water-holes which have been built in other places during the last few years and I am pleased to report that these features have been recognized as highly desirable and have attracted favorable attention from far and near.

There are several other natural locations in the Town where similar water-holes or reservoirs could be built. Each would provide water supply for fire-protection for the buildings within a quarter of a mile in any direction, and if we could have them we would have water supply almost equivalent to a hydrant system. It appears to me that the development of a larger project to construct them would be an excellent thing, and that its cost would be a small fraction of its value to the Town, and I present this report in the sincere

hope that it may lead to the adoption of such a plan.

To facilitate the business of carrying out this project I paid costs for labor and materials out of hand as follows:

For labor:

Francis Haggett	\$ 7.60
Raymond Brackett	9.20
Carol Coombs	8.00
Howard Houston	24.40
Wm. Hamilton	15.00
Stanley Johnson	28.80
Roland Dies	66.00

\$159.00

For materials:

Weismann's, for reinforcing steel	\$4.80
G. F. Rand, for lumber	9.06
Walter Lane, for millwork	4.00
George Chase, for welding	4.00
Manchester Foundry, for castings	3.45
Cooperative Foundry, for castings	1.85
Finberg Bros., for pipe and fittings	8.60
Osgood's Hardware, for chain	.24

\$36.00

I furnished a roll of mesh wire for reinforcing from my own shop \$13.00

I estimated additional expenses including own truck and auto expense, telephone, power, paint

10.00

\$23.00

Total, for which I have been reimbursed \$218.00

Other costs, paid by the Selectmen, were:

John A. Hutton, teaming	\$37.00
Benson Lumber Co., cement and lime	27.25
Town of Derry, for compressor	16.25
Carl Bullis, teaming	16.00
Varick's, for dynamite, etc.	12.00
Mason, excavating	11.25
	<hr/>
	\$119.75
	<hr/>
Total of All Costs	\$337.75

All of which is respectfully submitted,

Elmer C. Ingraham

SECOND ANNUAL REPORT OF THE FIRE DEPARTMENT

The department was called out 24 times.

We are not so fortunate as last year as we had 2 losses. One camp at Island Pond which burned in the night was nearly demolished before we were noti-

fied. The other was the old Turner house which I am very sorry to say happened at a time when practically all of our company were out of town. This brought about criticism from some of the townspeople, but we must remember that this is wholly a volunteer company and we do have to make a living.

The company has met once a week and its members have put in hours and hours of time and energy which we want the town to know about and appreciate.

We have a new Fire Chief who is a great booster of the company, and I am sure he is going to make a good man for the job. Let's all get together and give him our help and support this coming year.

L. E. Duston, Chief

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Hampstead qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 11th day of March 1940, at 7:00 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alter-

ation in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.

Given under our hands at said Hampstead this 14th day of February 1940.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Hampstead:

It is with pleasure that I present my annual report as Superintendent of your schools.

The Statistical Report is for the school year ending June 30, 1939. This report is followed by the reports of the Headmaster of the High School, the Music Supervisor, and the School Nurse.

Mr. Paul Rizzi resigned his position at the Central School in February to enter private employment. His place was filled for the remainder of the year by a substitute teacher. At the opening of the present school year Miss Katherine Kearns assumed the duties of principal and teacher in grades five and six. Miss Jeanette Saigh was selected to take Miss Kearns' place in grades three and four. Miss Saigh and Miss Kearns attended summer school at Keene, N. H. Mr. Cornwell took a course during the summer at Boston University. Miss Merriman spent the summer in extensive travel. Our teaching force is composed of persons well trained professionally and competent in the execution of their work. The Metropolitan Achievement tests, which are given each year in grades one to eight, reveal commendable work and a spirit present in the schools which brings satisfactory results. The interest of the pupils, which is strong evidence of success in school work, is manifest to a remarkable degree. The schools are well equipped for their work.

The enrollment for the year covered by this report was 180, which was eight less than during the previous year. The school attendance averaged 94.13% of the

membership, as compared with the state average of 94.74%.

Fourteen boys and girls completed the work of the eighth grade last June. All but one of these have entered a high school this year. Beth Ingraham was the recipient of the medal awarded by the Sons of the American Revolution to the pupil in the graduating class of the elementary schools who has best exemplified the principles of good citizenship.

The report presented by Miss Merriman contains detailed information about the Hampstead High School. The School continues to be characterized by earnestness of purpose, and fine achievement.

At the opening of the school year a new electric range was installed in the Home Economics room in the High School. This range has been loaned to the school by the Derry Electric Company, and there is no cost to the District, other than the cost of operation. This addition greatly improved the facilities in this department. We are grateful to the officials of this company for this service to our high school.

Children between the ages of sixteen and twenty-one years old may be employed in industry. The working certificate, if the work is in New Hampshire, is issued by the Superintendent of Schools for the town where the work takes place. Applicant should bring a birth certificate and a statement from the employer certifying that employment is being given. If work is in Massachusetts, applicant should present to school department where work is located, a copy of birth certificate, and a statement of employment, and a working paper will be given in exchange for these. In New Hampshire the certificate is required between the ages of sixteen and eighteen years. Those over eighteen years are required to file a birth certificate with the employer and no work certificate is necessary. In

Massachusetts, working papers are required from persons sixteen to twenty-one years old. Vacation and out-of-school-hours employment certificates may be obtained as formerly.

Training in safety has become almost as much of a necessity as other fundamentals in any plan of education in this country. Considerable attention has been given to safe procedure at home, at school, on the playground, on the road, with fire and poisons, in water sports, and other varied aspects of safe living.

A number of motion pictures and weekly radio programs have done much to bring interesting events and people more realistically into the schoolroom. Various clubs and activities have made the work more interesting and helpful. They tend to develop such training as social responsibility, good manners, worthy use of leisure time, habits of cleanliness, good health, and good citizenship.

The programs offered by the Boy Scouts, Girl Scouts, Campfire Girls, and Four H Clubs, have splendid possibilities for character building and development of youth. Greater community cooperation is needed to carry out these program. These organizations assist, in an effective way, in the educational program of our public schools.

Previous to the fall of 1938, the seventh grade used the fourth room in the Central School. Since that time the typewriting work has been done in this room instead of in the shop, and the seventh grade has been in the High School Building. While it is better to have the entire school housed in the same building, yet if crowded conditions continue, greater use will have to be made of the room in the Central School.

After being dry for several weeks, the well at the High School is again giving a supply of water. With a steam boiler, and pressure tank in the building, a

water shortage becomes more serious.

Dental clinics have been made possible through the effort of the Parent Teacher Association. I hope it will be possible to continue these clinics each year.

I am very appreciative of the interest and activity of the School Board in their unselfish efforts to make your schools the best that available funds allow. We have worked together for another year for the best interests of the children.

I would like to express my gratitude for the cooperation of the parents and citizens, as well as to those organizations that have given special assistance.

I would not forget the loyal service and active efforts of the teachers. I give them my thanks for their support and diligence. They deserve the bulk of the credit.

Respectfully submitted

William J. Nelson

Superintendent of Schools

High School closes after 180 days of school.

To the Superintendent and School Board:

I submit the following annual report for Hampstead High School:

In numbers we remain about the same as last year with the present enrollment of eighty-seven divided as follows:

Classes	Boys	Girls	Total
Senior	7	10	17
Junior	2	8	10

Sophomore	5	12	17
Freshman	5	11	16
	<hr/>	<hr/>	<hr/>
	19	41	60
Grade VIII	8	5	13
Grade VII	6	8	14
	<hr/>	<hr/>	<hr/>
	33	54	87

Members of the senior high school fill the main room to overflowing, there being two more desks needed than are available. Likewise, every desk in the freshman and junior high rooms is in use. The book capacity of the desks in the junior high rooms is in use. The book capacity of the desks in the junior high room is very inadequate today when so much teaching is done through the work sheet and contract methods requiring the use of many books for one subject. Because of lack of room books have to be left outside the desk and thus are more easily mislaid and lost. Habits of orderliness are not easily taught when desks have to be so crammed. The boys in their manual arts classes have fixed up a cabinet for housing some of these extra books and materials which relieves the situation somewhat, but some of the very small desks need to be replaced by others offering a greater chance for keeping books and tools in order.

The water problem has been a difficult one this fall at school as elsewhere. For six weeks now all water for drinking and use in the home economics classes has been brought over from the Central School.

Several small items of equipment have been added during the year. Through the purchase of fiber board and burlap three new bulletin board spaces have been created, thus providing a great increase of display room for work done. The present senior class has

purchased and presented to the school an electric recorder attachment for the radio that is of great help to us in our music work, assembly programs, and in making available music for dancing at school parties. Operetta money has bought many books and pamphlets necessary and helpful for reference work, provided current event papers for the classes in the social sciences, and added a few games to our store for entertainment during the noon hour.

A definite half year course in Guidance was begun last year and given to two groups. This was divided into work along the lines of personal and vocational guidance, with a survey of personal equipment and of the purposes and content of the courses offered in high school, and of the vocations open to the youth of today. This year four classes have been taking the Guidance course.

Constructive work is being done in remedial reading, spelling, and the fundamentals of arithmetic.

Last spring, in connection with the annual exhibition and Parents' Day, a hobby exhibit for both adults and pupils was staged. The response of the boys and girls to the invitation to bring evidences of their hobbies for display was most gratifying. So much interest was created that a hobby show will again be a part of the Parents' Day program for this year. It is hoped that an even larger proportion of exhibits will be the work of school pupils.

Our social activities have included parties given by the different classes and groups, the senior play, "Three Little Maids," and a Japanese operetta, "The Yokohama Maid," directed by Mrs. Thompson. The J. O. U. A. M. cup offered in the annual One-Act Play Contest was awarded to the Sophomore class. The Seniors spent the traditional day at Provincetown.

To our regular athletic schedules in basketball and baseball I hope that we may add home work in archery for the girls. It will mean for many who do not participate in any other sport an hour or so in the fresh air.

The Parent-Teacher Association, always so loyal in its support of all phases of school life, has again provided us with a much used and appreciated group of magazines: Reader's Digest, The American Magazine and Collier's, World Horizons, Safety Magazine, The American Boy, The American Girl, forecast, and Country Home.

We are again indebted to Mrs. John Sanborn for The Christian Science Monitor.

In striving to build and maintain a high school that will function as a place where real values are taught and learned, we of the teaching staff are very dependent upon the encouragement and active support that our school officials, all parents, and interested citizens give us, and take this opportunity of expressing our appreciation for it.

Respectfully submitted,

C. Adelaide Merriman

Headmaster

To the Superintendent of Schools:

It is with pleasure I present my annual report as Supervisor of Music in the Hampstead Schools.

Music education in our schools has developed a genuine enthusiasm and love for good music through vocal and appreciation courses.

Below is a brief outline of the work done in each grade:

Grade I: Rote singing. The melodies are simple, but tuneful, with easy progressions, and thus rote singing

becomes a pleasurable and valuable activity. The scale is taught by rote.

Grade II: Rote singing is continued, with the material placed in the pupils' hands. Notations and simple rhythms are presented here.

Grade III: To develop a music vocabulary and broaden the pupils' experience rote singing is still carried on. In this grade reading provides an opportunity for the child to gain facility in using simple elements of music.

Grade IV: Here we have a review of the music elements, which have become familiar to the child, introduce chromatics, the dotted quarter and eighth notes, and easy two-part singing.

Grades V - VI: In these grades 6-8 measure is introduced, also dotted eighth and sixteenth notes. More difficult chromatics, scale intervals and triplet time are developed. Two-part singing is continued and three-part singing begun.

Grades VII - VIII: The bass clef is presented. Three-part singing is continued and broadened.

In the High School there are two musical organizations a Girls' Glee Club and a mixed choir. Six pupils sang with the All State High School Chorus at the annual Music Festival held in Concord on May 12th. It was a rich experience for those taking part and a joy to all who listened. The Yokohama Maid an operetta well received by the audience and a success financially.

In closing I wish to express my thanks to you and the teachers for the hearty co-operation extended me throughout the year.

Respectfully submitted,

Eva W. Thompson

To the Superintendent of Schools:

I herewith submit my annual report for the town of Hampstead, for the year 1938-1939.

I wish to thank the Superintendent, teachers, members of the School Board, P. T. A., and all those who helped to make the year a success.

The report follows:

Number of children examined	169
Underweight	7
Treated since last examination	11
Defective vision	12
Corrected since last examination	5
Defective hearing	2
Corrected since last examination	1
Defective teeth	57
Treated since last examination	54
Enlarged tonsils	4
Treated since last examination	8
Enlarged glands	3
Treated since last examination	3
Other work accomplished:	
Number of visits to homes	51
Number of visits to schools	169
Number of children accompanied to Dr. 1 Examination.	
Number of children accompanied to Optician	2
Glasses	1
Number of children advised examination by Dr. Kerr,	
Lung specialist	2

Certificates of good health were given, for school attendance. Dental clinic held at the town hall. Sponsored by the P. T. A. The services of Dr. C. N. Mayo, were obtained, and thirty-two children attended.

Twenty-five received certificates for complete dental care.

Operated on for tonsils 1

Several visits were made to the dentist in Raymond, in the interest of the dental clinic, also three visits were made to the optician.

Special inspections were held in the Central school for skin diseases, and other evidence on contagion. Notices of all defects found were sent home to the parents.

Weight charts placed in each school room. Children were weighed several times during the year. Records sent home.

Respectfully submitted,

Helen W. Thomas

School Nurse
